## Thank You, Friends!

**We marvel at God's provision through faithful supporters like you!** God has given us victory. Victory by definition indicates a challenge and a battle. Last year was not without its challenges. However, it was an opportunity for God to show us his grace and provision. The economic downturn has affected many of our supporting churches and friends. The result is our monthly support has been down by as much as 40%. During this difficult time God has shown us his grace through the generous donations of churches and individuals who have rallied to help. As a result it was a truly amazing year. Now we are anxious to

finish raising our necessary financial budget of monthly support and cash offerings so that we can resume our ministry. A lot of work awaits us in the French Department of Global University. We are making great progress in the translation and production of the courses of Berean School of the Bible into French. However, we need an additional **\$2000** in monthly commitments and **\$10,000** in cash before we can have clearance to return to our ministry to the French.

grace that she is still with us and has not been in the hospital since last March. We recognize that intercessory prayer is the reason! We are also blessed to have our daughter Nathalie living with us to help with Raynan's care.

## Itineration

This last year of itineration has allowed me to visit numerous churches, mainly in South Texas, our home district. We thank God for his protection during my travels of around **30,000 miles**. We are also grateful for the amazing faithfulness of so many churches and friends and their generous support as they continue to partner with us in our mission to reach and teach the French-speaking people of the world.

## Raynan's Health

**Thank you for your continued prayers** for Raynan. Her oncologist changed her medicines in July, and we have seen some significant improvement in her blood counts. She was diagnosed with Polycythemia Vera (a blood cancer) in December 2003. It is only by the miracle of God's

Mom Jeter

## With the Lord

On January 15th, 2013 Doug's mother, Gertrude Jeter, went to be with the Lord. She had moved to the Ozark Riverview Manor in Ozark, Missouri, from Virginia where she lived with Doug's oldest brother Stan and his wife Rhoda. Mom Jeter was **101 years old**. She was loved and respected by all who knew her, and leaves a testimony of quiet faithfulness and steady perseverance. We certainly miss her, but appreciate the example that she left.

Our granddaughters Sonora and Sahara are now attending French school in Cairo
